The new **Digital Workflow** for Immediate Prosthesis

Tommaso Grandi

Live Surgery • Theory • Hands-On

TOMMASO GRANDI
EDUCATION

1ST DAY

Live Surgery

8:30 AM - 3:30 PM

- Step-by-step live surgeries with Full Arch on 4/6 rehabilitations
- Freehand and computer guided surgery protocols
- Full digital workflow with photogrammetry technology
- Clinical decision-making during surgery and immediate loading concepts
- Q&A session about the surgeries

Clinic Tour

4:00 PM - 5:30 PM

- Guided tour of the dental clinic, the surgical rooms and the dental lab
- Organization of the clinical and prosthetic workflow between the laboratory and the team
- Integration between surgical, prosthetic and laboratory phases
- Q&A session with the clinical team

2ND DAY

9:00 AM - 3:30 PM

Theoretical Session

- Advantages of Full Arch on 4/6 treatment with tilted implants
- Surgical technique explained through step-by-step videos
- Prosthesis sequence and lab workflow
- Scientific literature review
- Complications analysis and management
- Simplifying the treatment with computer guided surgery and photogrammetry

Hands-On Session

3:30 PM - 5:30 PM

- Practical session on models
- Placement of tilted implants using JDGuide
- Familiarization with surgical instruments and components
- Application of the Full Arch protocol in a controlled environment

The clinic

Welcome to Tommaso Grandi Dental Clinic.

Here, implantology is performed in a cutting-edge hospital-grade setting. You can watch my operating room, observe my workflow, and understand why every detail matters.

2 hospital-grade surgical rooms

High-efficiency air filtration, medical gases, and airtight negative-pressure doors to maintain a sterile environment.

Doctor prep room + patient prep room

Separate pathways for total control.

Recovery lounge

Reclining chairs for safe post-sedation recovery.

+ 6.200 implants/year

Over 900 immediate-load Full Arch restorations per year

FOLLOW ME

for regular updates on my clinical cases

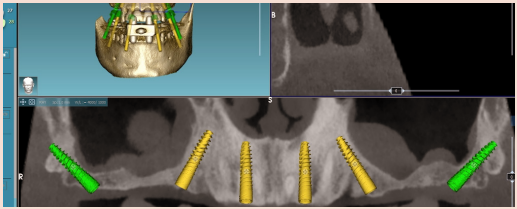

What doctors say

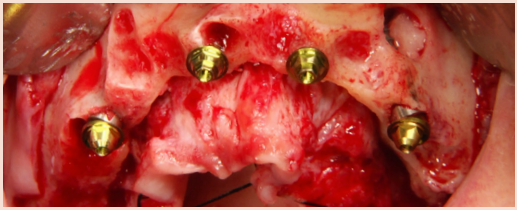

We see the full digital workflow, which is totally new to me.

This is really practical: surgical techniques, protocols, what to do and what not to do.
